Maxwood Terms and conditions.

1. Compliance

Maxwood make every effort to ensure the seating system complies to New Zealand and Local Body requirements but are not responsible for obtaining local body consent should it be required. Maxwood will assist in every way possible and as standard practice supply customised structural and floor loading data.

2. Electrical

Power supply and connection is not included. Any electrical cables and drive motors on the seating structure will be supplied and installed by Maxwood but the connections and power supply need to be done by a local qualified Electrician. A standard 15amp 3 phase plug with an isolating switch is recommended for the power supply. Ideally the 3 phase plug would be located under the retractable structure near one end.

3. Drawings

Final drawings will be supplied and require signing-off by the customer or a representative such as an Architect before manufacture can proceed. Final delivery date can not be confirmed until drawings are signed off.

4. Site Works Delays

If seating installation is delayed due to site conditions, any costs such as storage and handling, container demurrage and freight will be an additional charge.

5. Lead time

The lead time will be confirmed at the time of the final drawings being signed-off. As a general guide allow 12 weeks for manufacture, 6 weeks for international freight, 1 week for customs clearance & local delivery and 2 weeks for installation.

6. Floor

The floor needs to be correctly engineered to carry the given loads and be within operating tolerance for flatness.

7. Warranty

The standard Kotobuki Warranty is for 5 years on workmanship and materials. Misuse vandalism and fair wear and tear are excluded. For the warranty to remain valid the seating must be installed, and serviced annually, by an approved installer. A service contract can be provided but is not included in the quotation. A local emergency call service is available.

8. Payment terms

20% Deposit - on placement of order.

50% Payment on Delivery of Goods to Site.

Final Payment - due 7 days from completion of installation.
