To whom it may concern,

I am writing in support of the Loons Theatre Trust's recent application for funding support to enable the rebuilding of The Loons Theatre. The loss of such an iconic Lyttelton institution has been devastating for the local communities, and we wholeheartedly support the Trust's efforts to raise the funds necessary to rebuild, and continue to entertain the people of Lyttelton and the wider Canterbury region. These communities have lost so much in recent years, so to have somewhere to gather, relax and be entertained is of huge significance.

Our Trust has been extremely fortunate to have benefited from the generosity of the Loons Theatre Company in recent years, through their staging of "Loons Quiz Nights" to raise funds for the Westpac Rescue Helicopter Service. So not only does this team of talented comedians, actors and artists entertain, but they also help raise funds and awareness for other worthwhile causes within their local community. This type of support is vital and invaluable for an organisation such as ours.

So we wish to acknowledge their efforts on our behalf by throwing our support behind their efforts to rebuild. They are most deserving of funding support to help make the dream reality, and I would ask you to respond generously to their request, to enable them to continue doing what they do best. Entertaining and bringing joy and laughter to the many people of Canterbury.

Yours sincerely,

Rachael McNutt
Manager
